

MAINTAINING YOUR POWERED HYDRATION SYSTEM

IN SEASON: KEEP YOUR SYSTEM CLEAN AND SANITIZED AFTER EVERY USE AND IT WILL LAST SEVERAL YEARS. WE KNOW THIS MAY BE DIFFICULT TO DO AFTER EACH USE SO AIM TO WIPE THE UNIT DOWN AFTER EACH USE AND SANITIZE THE TANK, PUMP, MANIFOLD, HOSES AND NOZZLES AS DIRECTED AT LEAST TWICE PER WEEK IF BEING USED DAILY.

- * WIPE DOWN THE UNIT AFTER EACH USE TO KEEP CLEAN & DRY
- * SANITIZE THE TANK, PUMP, MANIFOLD, HOSES AND NOZZLES AS DIRECTED
- * KEEP THE BATTERY ON THE CHARGER BETWEEN USES
- * STORE IN A COOL, DRY PLACE.
- * FREEZING TEMPS CAN CRACK THE PUMP AND MANIFOLD OR DAMAGE THE BATTERY

**DO NOT USE ANYTHING OTHER THAN WATER.
POWDERED SPORTS DRINKS WILL CLOG THE PUMP AND WILL VOID THE WARRANTY.**

OFF SEASON:

- * FULLY CLEAN AND SANITIZE THE ENTIRE SYSTEM
- * MAKE SURE NO EXTRA WATER IS LEFT IN THE TANK, HOSES, OR NOZZLES
- * ALLOW IT TO AIR DRY BEFORE STORING WITH THE TANK CAP AND NOZZLES OFF
- * COVER AND STORE IN A COOL, DRY PLACE
- * DO NOT LET THE BATTERY LOSE IT'S CHARGE
- * CHARGE THE BATTERY AT LEAST ONCE PER MONTH FOR 3-4 HRS

BATTERY LOST ITS CHARGE?

- * FIRST, BE SURE THAT THE BATTERY IS PROPERLY CONNECTED.
- * IF STILL NO CHARGE, THE BATTERY HAS MOST LIKELY FALLEN BELOW THE MINIMUM AMPERAGE FOR THE CHARGER TO RECOGNIZE IT.
- * TO BRING THE CHARGE BACK UP DO NOT USE THE PROVIDED CHARGER. USE A 12 VOLT TRICKLE CHARGER THAT IS INTENDED FOR CAR BATTERIES.
- * WEARING PROPER PROTECTIVE GEAR, CHARGE WITH THE CAR CHARGER FOR 4-6 HOURS. THIS SHOULD BRING THE AMPERAGE UP AND THE PROVIDED CHARGER SHOULD BE ABLE TO FINISH CHARGING THE BATTERY.
- * IF THE CAR TRICKLE CHARGER DOES NOT WORK THE FIRST TIME, TRY IT AGAIN FOR ANOTHER 2-4 HOURS. BE SURE NOT TO OVERCHARGE AS THIS WILL DAMAGE THE BATTERY.

MAINTAINING YOUR NON-POWERED HYDRATION SYSTEM

IN SEASON: KEEP YOUR HYDRATION SYSTEM CLEAN AND SANITIZED AFTER EVERY USE AND YOUR SYSTEM WILL LAST SEVERAL YEARS. WE KNOW THIS MAY BE DIFFICULT TO DO AFTER EACH USE SO AIM TO WIPE THE UNIT DOWN AFTER EACH USE AND SANITIZE THE HOSES AND NOZZLES AT LEAST ONCE PER WEEK IF BEING USED DAILY.

- * WIPE DOWN THE UNIT AFTER EACH USE TO KEEP CLEAN & DRY
- * SANITIZE THE HOSES AND NOZZLES IN A TUB OF WARM WATER AND TWO SANITIZING TABLETS
- * STORE IN A COOL, DRY PLACE.
- * FREEZING TEMPS CAN CRACK THE MANIFOLD.

BE SURE TO USE A SUPPLY HOSE THAT IS INTENDED FOR DRINKING AND FOLLOW THE MANUFACTURERS DIRECTIONS FOR MAINTENANCE AND CARE

OFF SEASON:

- * FULLY CLEAN AND SANITIZE THE ENTIRE SYSTEM
- * MAKE SURE NO EXTRA WATER IS LEFT IN THE HOSES, NOZZLES AND MANIFOLD
- * ALLOW THE UNIT TO AIR DRY BEFORE STORING WITH THE NOZZLES REMOVED
- * COVER AND STORE IN A COOL, DRY PLACE.
